

Michael Harris bio

Michael is a native Nashvillian, and has lived here all of his life. He graduated from Glenclyff High School in 1986 and stayed in town to attend Trevecca Nazarene University (a college back then), where he graduated in 1990 with a B.S. double major in Business Administration and Computer Information Systems.

He spent 17 years in the Christian Publishing industry, mostly as a Business Analyst. All but two of those years were with two publishers: Thomas Nelson Publishers, the world's largest religious publisher, and B&H Publishing, whose parent company is LifeWay Christian Resources. LifeWay Christian Stores is a sister company to B&H Publishing.

Michael is a member of Brentwood Baptist Church, where he serves on the Missions Advisory Committee.

Brentwood Baptist gave him the opportunity to work on a Habitat build three years ago. It was his first experience with Habitat and he hasn't looked back ever since. He says "I'm hooked, I serve with several different ministries, but Habitat is my favorite way to serve." "I love the camaraderie with Gregg, David, and the Crew Leaders." "I love seeing the eagerness and positive attitudes of the volunteers." **"And I love seeing a noble project such as building a high quality Habitat home being built from beginning to end for someone who just needs a little help to get on their feet."**

Michael is one of the newest members of Habitat for Humanity of Williamson County's Board of Directors. He has been a member of the Construction Crew Leader Subcommittee for 1-1/2 years where he serves as the official timekeeper. Michael's monthly reports provide critical data essential to lowering the odds of Crew Leader burn out occurring. He says "Habitat has helped prepare me immensely in serving others in need, particularly with the recent flood victims." "I have learned so much, and still learn something just about every build day that I participate in." **"Knowing that I'm a small part of being Christ's hands & feet is a huge blessing every time that I come out on a Habitat work day."**
